One of the most appreciative parer trip was that aboard the Hart Line steamer Hiawatha, when it made the last trip of the season, April 11-12. The boat was chartered by Theo. N. Vail, president of the Western Union Telegraph Company, for a special trip Silver Springs. Mr. Vail was especially pleased with the electric illumination of the forest which has just been inaugurated this season, saying that the delightful results obtained were more fascinating than the scenes thruout the daylight. He was over the route several years ago when the pitch knot bond fire was used, but believes he enjoyed the trip now better than ever .- Palatka Herald.
